

## Women Leading Government

*Helping women succeed in public service*

Wendy Rogers will share her struggles as a forerunner in green building and how her passion has helped her to become a leading pioneer in her field.

**Date: Wednesday, July 28, 2010**

**Time: 11:30 a.m. — 1:30 p.m.**

**The Frontier Project, 10435 Ashford Street, Rancho Cucamonga**

# Pioneering Leadership

## thefrontierproject

WLG is proud to present Wendy Rogers, design principal at LPA Inc., and a pioneer in the field of green building. This Roundtable event takes place at an exciting green demonstration building, The Frontier Project, which showcases how sustainable design is economical, efficient, and inviting. But rather than being all about LEED certifications and green practices, this event will showcase Wendy's truly visionary leadership, and how her passion has fueled her success as a leader in her field. Wendy was named this year as one of OC Metro's 20 Women to Watch, and has been featured on CCN's Local Edition. This Roundtable is especially important to any woman with a vision or dream. Don't miss this opportunity to learn from Wendy's pioneering leadership!

Lunch will be served buffet style, with such enticing items as Chicken Picatta, asparagus, baby potatoes, Caesar salad, freshly baked French bread, and lemon bars for dessert.

*The cost of lunch is being subsidized by the firm Civil Source!*
