08:00	Bus Departs Hotel for Corda Campus	Radisson Blu
08:30	On-Site Registration and Refreshments	Corda Campus
09:00	Welcome Address	Corda Campus
09:15	 <p><b>An AI Perspective on Urban Resilience –</b> Anca D. Goron, PhD, AI Expert &amp; Smart City Platform Coordinator, Forbes 100 Female Founders</p> <p>Anca Goron holds a Ph.D. Degree in Artificial Intelligence and is an AI advisor and founder of her own AI Consultancy &amp; Research company (avaresearch.ai) focused on conceptualizing and implementing AI solutions and strategies. Since 2020 she is a member of the Smart City Standards Analysis Technical Committee for the Romanian Standards Association and collaborates as a mentor and expert for women in tech and AI. During her over 18 years of activity in business technology in the Internet of Things, Deep Tech, Smart City, Data Security and more recently Space &amp; Astronautics, she founded two startups and put her mark on several innovative products and initiatives, which led her to be included in the Top 100 Females Founders list by Forbes in 2018.</p>	Corda Campus
10:15 - 10:30	Partner Session Presented by Visoro Global and Coffee Break	Corda Campus
10:30 - 11:30	<b>European Support for AI and Technological Innovations in Cities and Local Governments –</b> David Eray, Spokesperson on Digitalization and Artificial Intelligence, Council of Europe	Corda Campus
11:30 - 12:30	 <p><b>How Western European Governments are Using A.I. –</b> Henk Bouwman, Secretary General, EUROMETREX, The Network of European Metropolitan Regions and Areas</p> <p>Since 2016, Henk Bouwman has served as the Secretary General for METREX - the Network for European Metropolitan Regions and Areas, consisting of 53 member organizations from all over Europe. In 1998, Mr. Bouwman established his own urbanism practice, UiP urban producers, that specializes in designing long-term urban change in “places of connection” -- city centers and station districts in Europe and Asia. He has consulted with the Independent Transport Commission (ITC) on the spatial impact of High-Speed Rail and has published on connected cities as accessible places for growing economies. He has held a number of academic posts at the Academies in Amsterdam, Rotterdam and Tilburg (NL). For four years he was director of the Academy of Urbanism in London.</p>	Corda Campus
