User Guide for HuskyLite® Roll-out Recycling Carts

Please read this guide before using your roll-out cart

HuskyLite® Roll-out Cart User Guide

Introduction

SPSA is pleased to provide HuskyLite® Roll-out Carts to your community. The benefits of roll-out carts for the curbside collection of household recyclables are well documented based on hundreds of programs across North America. Roll-out carts provide a clean and efficient solution to the ever demanding needs of collection companies, cities, and local, state, and federal regulations. This brochure briefly describes the benefits of roll-out cart systems and provides a handling guide for your new HuskyLite® Roll-out Cart.

Roll-out Cart Benefits

Cleanliness:

HuskyLite® Roll-out Carts keep odors in and vermin and animals out. The attached lid helps prevent spills while keeping your streets clean and aesthetically pleasing.

User Friendly:

HuskyLite® Roll-out Carts contain many user-friendly features making the disposal of recyclables a more pleasant task. The cart body has a wide handle for pushing or pulling. The lid has a large lifting ledge along the front of the cart that doesn't require you to touch the underside of the lid when opening. The foot tilt area on the back of the cart body and the large wheels ease tilting and maneuvering when moving the cart.

Efficiency:

With the demands on collection companies and cities to continuously improve efficiencies, roll-out carts provide a cost-effective method to collect household recyclables.

Handling Instructions -

Read First Before Using Your Cart

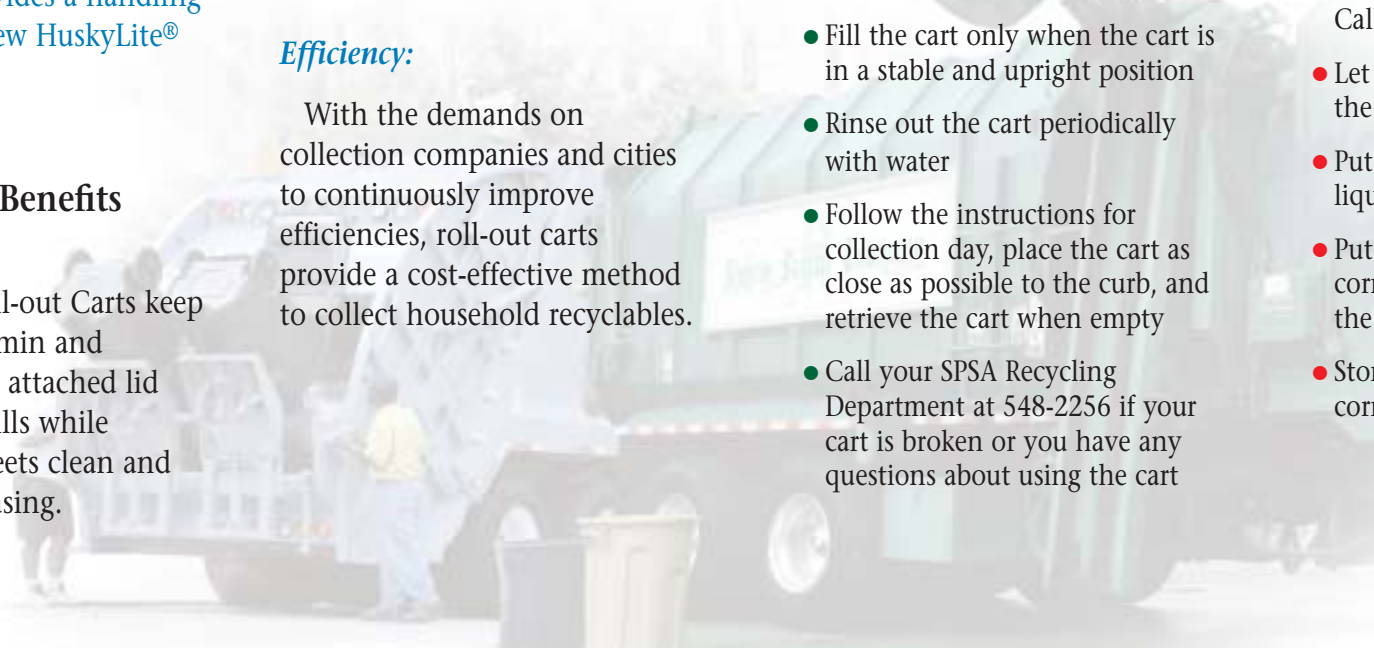

Please read the following simple rules for using your cart correctly before you place any recyclables inside your cart. Keep these instructions handy and refer to them often whenever you have questions about the correct use of your cart.

Yes, Do

- Follow all instructions placed on the cart or provided to you by your collection service provider
- Completely close the lid before moving the cart
- Keep fingers and hands clear of the cart top rim when opening or closing the lid
- Grab the handle with both hands while facing the rear of the cart before moving the cart; then tilt and push or pull
- Fill the cart only when the cart is in a stable and upright position
- Rinse out the cart periodically with water
- Follow the instructions for collection day, place the cart as close as possible to the curb, and retrieve the cart when empty
- Call your SPSA Recycling Department at 548-2256 if your cart is broken or you have any questions about using the cart

No, Don't

- Tilt or move the cart with the lid open
- Overfill the cart – Make sure the weight limit is not exceeded and the lid will close completely before moving the cart
- Step or climb on the wheels
- Sit or stand on top of the cart or climb in the cart body
- Drag the cart
- Use the cart if it is broken – Call for a repair
- Let children or pets play around the cart
- Put hot coals, ashes or flammable liquids in the cart
- Put hazardous waste, paints, oil, corrosives, or dead animals in the cart
- Store cart near a heat source, corrosives, or flammable liquids
