

**Partnership with OVI Task Force**  
National Association of Regional Councils (NARC) 2010 Award Application  
Medium Metro General Achievement Award

The Eastgate Regional Council of Governments (Eastgate) is the designated Metropolitan Planning Organization (MPO) for Mahoning and Trumbull Counties. Eastgate is the regional voice of government, designated by the state of Ohio, with members including Ashtabula County, Mahoning County, Trumbull County, and all cities, villages, and townships in those counties. Although not an MPO member, Ashtabula County receives services through the Appalachian Regional Commission, Ohio Rideshare, and Economic Development Administration programs.

Eastgate's success and ability to provide comprehensive and high-quality services to the region can be attributed to its ability to form strong and diverse partnerships. Eastgate recognizes partnerships are not only beneficial for sharing resources and information, but that they are crucial to promoting regionalism and a sense of community.

Like other regional councils, Eastgate has formed lasting partnerships with local, state and national government entities, local businesses, universities and community groups. Examples of Eastgate's successful partnership programs include watershed and source water protection planning, MPO/Department of Transportation coordination, bi-state highway and transit planning, rideshare programs and a procurement program.

Unique partnerships include the Environmental Protection Advisory Committee (EPAC) and the Operating a Vehicle Impaired (OVI) Task Forces. EPAC was formed in 2006 as a forum

for cooperative, regional environmental planning, with the realization that environmental problems are not contained within political boundaries. EPAC is an active group, with 21 officially-appointed committee members and an actual meeting attendance between 35 and 50 people. Eastgate was recognized in 2007 by the Ohio Environmental Protection Agency for its efforts to build regional relationships to solve environmental challenges.

One of the most important and unique partnerships that Eastgate has is with the local OVI Task Forces. The top 10 counties with the highest alcohol-related fatalities each year are target counties for OVI Task Forces and funding from the Ohio Traffic Safety Office. Mahoning and Trumbull Counties are currently both Targeted Alcohol Counties. The goal of the Mahoning and Trumbull County Task Forces is to reduce the number of alcohol-related crashes and fatalities in the region.

The current Mahoning County Task Force for fiscal year 2009 includes the Boardman Police Department, Canfield Police Department, Goshen Police Department, Austintown Police Department, New Middletown Police Department, Youngstown Police Department, Youngstown State University, Jackson Police Department, Beaver Police Department, Ohio Department of Natural Resources/Lake Milton State Park, Milton Police Department, Poland Township Police Department, Springfield Police Department, Mahoning County Sheriff's Office (Attachment A).

The 2009 Trumbull County Task Force includes the Bazetta Police Department, Brookfield Police Department, Champion Police Department, Fowler Police Department, Girard Police Department, Hubbard Police Department, Hubbard Township Police Department, Kinsman Township Police Department, Liberty Police Department, Lordstown Police Department, McDonald Police Department, Niles Police Department, Weathersfield Police Department, West Farmington Police Department, and the Trumbull County Sheriff's Office

(Attachment A). Both local Task Forces are assisted by the Ohio State Highway Patrol and the Ohio Investigative Unit.

Eastgate has been active in the Task Forces since 2003. Eastgate maintains a large repository of crash data from which maps, tables and statistics are provided at monthly meetings, which are often held at Eastgate's office. The data provided by Eastgate enables the Task Forces to identify locations with higher alcohol-related accidents (Attachment B). These locations are targeted for sobriety checkpoints and saturation patrols which help to reduce the number of drunk drivers and alcohol-related accidents. In addition to providing crash location data, crash data is examined for temporal patterns. By identifying peak hours, peak days, or peak seasons, target enforcement becomes more effective.

Part of the Task Force's job is to identify alcohol-impaired drivers through checkpoints, but another important aspect is education. Press releases remind the public that impaired driving is a dangerous practice, and encourage the use of designated drivers. Checkpoints create driver awareness and an opportunity to pass out educational materials. The Task Forces are required to coordinate a minimum of 12 sobriety checkpoints with coordinating saturation patrols, and 3 press releases. From October 2006 to September 2007 there were 22 sobriety checkpoints, 21,500 cars stopped, 36 OVI checkpoint arrests, and 116 OVI saturation patrol arrests.

Eastgate also works with the Task Forces to secure necessary funding. Through the Governor's Office of Safety, Eastgate was able to secure \$35,000 in funding for vehicle-mounted variable message signs for two patrol cars in each county and collapsible lane reduction signs to funnel traffic safely into the checkpoint diversion areas. This is an example of the new safety initiative being promoted by Eastgate and the state of Ohio.

Through the efforts of the OVI Task Forces and Eastgate, the number of alcohol-related fatal accidents has significantly reduced in the two-county area, validating the success of this program and partnership (Attachment C). The Task Forces have been so successful that both Mahoning and Trumbull Counties may soon be removed from the list of Top 10 Targeted Alcohol Counties, which means that Task Forces would no longer be required. The Mahoning County OVI Task Force recognized Eastgate's contribution to the Task Force for four years in a row through an appreciation award (Attachment D).

Eastgate's partnership with the local OVI Task Forces reduced the number of alcohol-related fatalities and made the roads safer. Eastgate's partnerships benefit all involved through sharing information, resources and cost. As a result of partnerships, Eastgate can offer efficient and effective programs and services that enhance the quality of life in our region. The creative approach to finding solutions, saving money and saving lives through partnerships merits recognition for a NARC General Achievement Award.

## Alcohol Crash Data Statistics for Mahoning County

- In 2006, 495 people in Ohio were killed in alcohol-related crashes representing 40% of the 1,239 total traffic fatalities.
- Mahoning County has experienced 962 alcohol-related crashes during 2004-2006. Of these crashes, 565 (59%) occurred in Austintown, Boardman and Youngstown.
- Youngstown was first with 200 alcohol-related crashes during 2004-2006. That is 21% of the total alcohol-related crashes for that period.
- 637 people were injured in alcohol-related crashes in Mahoning County during 2004-2006. Another 41 people were killed.
- June, July and August were the worst months when it comes to alcohol-related crashes at 265 crashes during 2004-2006. 28% of the crashes occurred during these months.
- October, November and December had 249 alcohol-related crashes during 2004-2006 equaling 26% of the total alcohol-related crashes for that period.
- July had the most alcohol-related crashes of any month during 2004-2006 at 102 crashes. That is 11% of the total alcohol-related crashes for that period.
- Friday, Saturday and Sunday has the most alcohol-related crashes of any other three day period in Mahoning County with 543 alcohol-related crashes (56%) during 2004-2006.
- Saturday was the worst day of the week during 2004-2006 having a total of 229 alcohol-related crashes (24%).
- In Mahoning County, 77% of the total alcohol-related crashes had male drivers. That was 741 alcohol-related crashes during 2004-2006.
- 22% of the total alcohol-related crashes had female drivers. That was 207 alcohol-related crashes during 2004-2006.
- The age bracket with the most alcohol-related crashes in Mahoning County during 2004-2006 was the 20-29 having had 286 alcohol-related crashes or 30%.
- The 30-39 and 40-49 age brackets both were second in the number of alcohol-related crashes during 2004-2006 having had 201 alcohol-related crashes or 21% for each.
- In Mahoning County, the hours between 12:00 AM - 2:00 AM were the most dangerous resulting in 297 alcohol-related crashes during 2004-2006. That was 31% of the total alcohol-related crashes for that period.
- 2:00 AM had the most alcohol-related crashes with 121 or 13% during 2004-2006 with 12:00 AM next, having 97 or 10% of the total alcohol-related crashes for that period.
- During the years of 2004-2006, Mahoning County had 22,797 total traffic accidents with 975 or 4% of those accidents being alcohol-related crashes.
- Out of the 88 total traffic crash fatalities during 2004-2006, 41 or 47% were alcohol-related crashes.
- Out of the 9,648 total traffic crash injuries during 2004-2006, 637 or 7% were alcohol-related crashes.

## Alcohol Crash Data Statistics for Trumbull County

- In 2006, 495 people in Ohio were killed in alcohol-related crashes representing 40% of the 1,239 total traffic fatalities.
- Trumbull County has experienced 1,142 alcohol-related crashes during 2004-2006. Of these crashes, 434 (38%) occurred in Warren, Liberty and Howland.
- Warren was first with 238 alcohol-related crashes during 2004-2006. That is 21% of the total alcohol-related crashes for that period.
- 769 people were injured in alcohol-related crashes in Trumbull County during 2004-2006. Another 27 people were killed.
- April, May, and June were the worst months when it comes to alcohol-related crashes at 304 crashes during 2004-2006. 27% of the crashes occurred during these months.
- October, November and December had 280 alcohol-related crashes during 2004-2006 equaling 25% of the total alcohol-related crashes for that period.
- February had the most alcohol-related crashes of any month during 2004-2006 at 112 crashes. That is 10% of the total alcohol-related crashes for that period.
- Friday, Saturday and Sunday has the most alcohol-related crashes of any other three day period in Trumbull County with 677 alcohol-related crashes (60%) during 2004-2006.
- Saturday was the worst day of the week during 2004-2006 having a total of 286 alcohol-related crashes (25%).
- In Trumbull County, 77% of the total alcohol-related crashes had male drivers. That was 877 alcohol-related crashes during 2004-2006.
- 22% of the total alcohol-related crashes had female drivers. That was 246 alcohol-related crashes during 2004-2006.
- The age bracket with the most alcohol-related crashes in Trumbull County during 2004-2006 was the 20-29 having had 380 alcohol-related crashes or 33%.
- The 30-39 age brackets was second in the number of alcohol-related crashes during 2004-2006 having had 270 alcohol-related crashes or 24% for each.
- In Trumbull County, the hours between 12:00 AM - 2:00 AM were the most dangerous resulting in 362 alcohol-related crashes during 2004-2006. That was 32% of the total alcohol-related crashes for that period.
- 2:00 AM had the most alcohol-related crashes with 154 or 13% during 2004-2006 with 12:00 AM next, having 106 or 10% of the total alcohol-related crashes for that period.
- During the years of 2004-2006, Trumbull County had 17,126 total traffic accidents with 1,161 or 7% of those accidents being alcohol-related crashes.
- Out of the 68 total traffic crash fatalities during 2004-2006, 27 or 40% were alcohol-related crashes.
- Out of the 7,430 total traffic crash injuries during 2004-2006, 769 or 10% were alcohol-related crashes.

## ATTACHMENT D

Appreciation Award from the Mahoning County Task Force

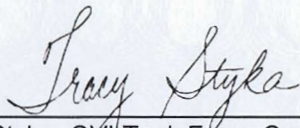

# *Certificate of Appreciation*

This certificate recognizes the support of the  
**Eastgate Regional Council of Governments**  
during the FFY '09 grant year of the Mahoning County OVI Task Force.

Your commitment and support has assisted in making the roads  
in Mahoning County safer by helping to reduce alcohol and drug related crashes.

Presented by this 8<sup>th</sup> day of September, 2009.

Tracy Styka, OVI Task Force Coordinator

The Mahoning County OVI Task Force is funded by USDOT/NHTSA  
and ODPS/OTSO through the Goshen Police District
