## WE HELP CITIES FUND CIVIC PROJECTS

At Neighbor.ly, our mission is to provide communities with the tools they need to raise funds for projects they truly care about. Now, your community has access to all new funding sources for civic amenities. We believe that citizens should be provided with incredible experiences even when budgets are tight, so for the first time ever, we're empowering communities to co-create those unique experiences without further burden on their local government. Cities save money, local jobs are created, contributors earn perks, citizens get new amenities. Win / Win / Win / Win!

# WE WANT TO HELP YOU!
