

Format (2013)

- What services/programs are most important to you?
- How should the City deal with increasing cost of programs and services?
- Should the City take on more debt if it meant addressing significant infrastructure needs?
- How could the City be more efficient and effective with your tax dollars?

Format (2014)

- Are there ways the City may be able to generate cost efficiencies in the delivery of essential and supplementary services?
- How would you propose to reduce the accumulated operating deficit in the utilities?
- What should be a realistic level of debt to achieve by 2018?
- What are your suggestions for accelerating the reduction of debt?
- What do you feel are the three most significant priorities for the 2015 Budget?
