City Data / Transparency

Last Updated: January 15, 2019

Open Budget

Launch Open Budget

The Open Budget application is updated annually and presents financial information through an interactive platform that enables residents to explore and better understand where tax dollars are being spent.
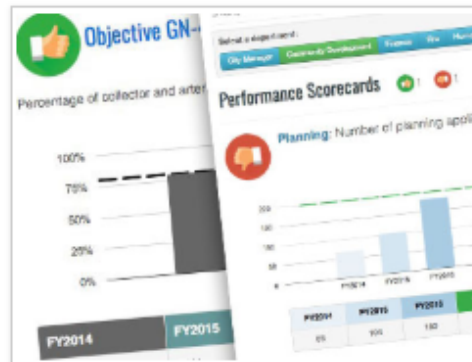

Demo Video: English | Español

Open Expenditures

Launch Open Expenditures

The Open Expenditures application displays interactive financial information about the City's expenditures. This information is updated nightly, therefore rendering up-to-date expenditures for the city. These expenditures include interdepartmental fund transfers as well as funds that are paid to external sources.
