A New ICMA Member Benefit for Members in Transition
Preferred Provider

IF YOU SEARCH FOR YOUR OWN NAME RIGHT NOW, WHAT SHOWS UP ON THE FIRST PAGE OF THE SEARCH RESULTS?

Whether you like it or not, these first few search results are, effectively, your online reputation. These are the first bits of information a City/County will find when they do a background check on you as part of the hiring process. Or what reporters and community members will find when they want to learn more about their City/County leader.

Online reputation management is the process of preventing and repairing threats to your online reputation, but it also involves building a strong positive presence. It is done by tracking what is written about you using techniques to address or moderate that information.

WHY IS THIS SO IMPORTANT?

Your success and the success of your local government depends on many factors. One of these factors is reputation. Remember that your greatest asset is your professional reputation. A negative online reputation can cause significant damage to any person or organization.

The City/County Manager community is all-too-aware of the damage that can be done nowadays to a professional reputation, thanks to the speed and power of the Internet. Without a strong online presence, one small misstep could lead to search results for your name full of content that is out of your control.

“Social media enables us to engage efficiently with our communities, but these platforms also make it easy to become the target of unfounded complaints or even smear campaigns that can badly damage an organization’s or your hard-earned reputation. If it happens to you, how you respond matters.”

HOW ICMA CAN HELP

The best defense is a strong offense when it comes to your online reputation, which is why ICMA has partnered with Tripepi Smith to offer a subsidized Online Professional Management service for Members in Transition. That way, when someone searches for your name, your voice is heard.
